### Essay Question (250-300 words)

SAE International is the professional society for advancing the engineering of mobility systems in the aerospace, automotive and commercial vehicle industries. This includes all aspects of the design, manufacture, maintenance, safety, and operation of vehicles, devices, systems and infrastructure used on land or sea, in air or space. Part of the purpose of SAE scholarships is to encourage students to pursue a career in the field of vehicle mobility engineering.

Describe how your studies or research relate to one of the following areas: the internal combustion engine, conservation of energy in transportation, agriculture & construction, or power generation.
